

HOLLY HUNT LIGHTING
KEVIN REILLY COLLECTION

KEVIN REILLY

Made famous for his innovative creations incorporating electrical light into wax candles, Kevin Reilly set a standard for lighting that is both rustic, romantic and chic. Based in Montgomery, Alabama, this self-taught artist and designer has been producing custom furniture and light fixtures for architects and designers for the past decade. In 2001, the collaboration between Reilly and HOLLY HUNT began.

Reilly's team works in a truly collaborative effort, taking great pride in their work. Production begins and ends in his workshop, starting with sheets of steel that are fabricated and finished into excellently crafted fixtures. Reilly's iconic candle motifs are constructed of specifically formulated wax and set to give the same ambient and soft glow of candlelight. Individually handcrafted, Kevin Reilly lighting has become a mainstay in the industry.
