A new wallcovering destination

Experience a new portfolio of wallcovering lines exclusively available through our HOLLY HUNT and partner showrooms. Every product detail has been carefully selected, from the materials to the colors, from the textures to the production techniques.

Curated colors and textures

This collection translates the enduring spirit of our Great Plains textiles, with its fashion-forward but understated look, to wallcovering. Our first collection is foundational and delivers a collection of beautiful, natural materials, woven textures, sophisticated patterns, and luminous finishes.

HOLLY HUNT Walls

Ultra-luxury with a focus on materiality

Truly handcrafted wallpaper that melds the practice of ancient crafts and the use of natural materials to create timeless yet contemporary designs. Overseen by founders Heidi and Christian Batteau, all designs are produced in Arkansas by a small group of artisans in a re-purposed seed mill.

A S S E M B L A G E

Innovative and artisanal

The latest print innovations are merged with hand-crafted natural grounds to create original products never seen before in the marketplace. This inaugural collection employs details like sculptural textures, metallic foil underlays, and hand-applied fibers to create intricate patterns.

CARLISLE & CO.
WALLCOVERINGS

Working together

This new portfolio is rolling out to all our showrooms over 2020–21. Some showrooms will have additional lines specially selected for the market.

Please contact your sales associate to review all the wallcovering lines and to request samples or visit hollyhunt.com/wallcovering.
