

VLADIMIR

# KAGAN

CLASSIC COLLECTION EXCLUSIVELY THROUGH HOLLY HUNT **SECOND EDITION**

Vladimir's works evoke a future of tremendous ambition, their fluid lines and sinuous forms evolved from his superbly unapologetic belief in the fantastic, his commitment to progress and boundless sense of discovery. ZAHA HADID

My furniture emphasizes the interplay of wood and structure; of space and light, simplicity and function. A designer must create for his own age; he must apply contemporary technology to enrich contemporary man. Vladimir Kagan

Vladimir's works evoke a future of tremendous ambition, their fluid lines and sinuous forms evolved from his superbly unapologetic belief in the fantastic, his commitment to progress and boundless sense of discovery. ZAHA HADID

Vladimir Kagan began by drawing and sculpting his furniture forms.

I'm fascinated that Kagan's sofas, tables, and chairs manage to be so connected to their time and yet are also so timeless. It's such an achievement that is, of course, the ultimate goal of any designer. Looking at Kagan's furniture, I am always slightly awed because I can't imagine them ever looking anything less than totally relevant. TOM FORD

1970

Our cabinet makers take pride in the selection of their raw materials, in the matching of their grains and in the infinite precision of their construction. The finishers massage their woods with oils, lacquers and waxes to achieve subtle patinas and burnished lustres.

Our upholsterers carefully hand tie each spring, double stuff the seats and artfully mould foams into the body-hugging contours for our unique sculptured furniture.

Each craftsman takes unabashed pride in his work. We do not attempt to produce our furniture cheaply, nor in quantity, nor with shortcuts. We have found the shortest distance between two lines has many hidden facets. VLADIMIR KAGAN
