

HANDWOVEN WINDOW COVERINGS

VALANCES

A valance has aesthetic beauty and can also help conceal operating mechanisms from the front or rear view.

- STANDARD FEATURES UNLESS OTHERWISE SPECIFIED:
- All front operation and top-down/bottom-up shades include a 6"L front valance
 - All inside mount Roman shades, with control loop or motorization, include a 6"L reverse valance
 - All sheer weaves, with control loop or motorization, include a 6"L faux valance (see separate Product Portfolio Weaves book for Weaves with **SW** code)
 - All inside mount lined Roman shades, with control loop or motorization, include a 6"L fabric-only reverse valance

NOTE: Upcharges apply for valances on specialty shades.

VALANCE TYPE	APPEARANCE	DESCRIPTION	STANDARD FEATURES
Front Valance		The shade and valance are woven together as one continuous piece. The valance is the same width as the shade and drapes from the front of headerboard and is decorative unless used to conceal operating mechanisms from view.	<ul style="list-style-type: none"> • Hemmed bottom • If fabric lining is ordered, valance is not lined unless specified • Side returns the same length as valance for outside mount • NOTE: If front operation or top-down/bottom-up is specified, front valance is included at no charge.
Faux Valance		A faux valance is a finished piece of lining fabric adhered directly to the reverse of the shade. A faux valance reduces the visibility of operating mechanisms on sheer weaves.	<ul style="list-style-type: none"> • 6"L faux valance • Side returns the same length as faux valance for outside mount • NOTE: For all sheer weaves, SW, with control loop or motorization, faux valance is included at no charge.
Reverse Valance		The shade and valance are woven together as one continuous piece. The valance is the same width as the shade and drapes from the back of headerboard to conceal operating mechanism from exterior view.	<ul style="list-style-type: none"> • 6"L reverse valance with hemmed bottom • Side returns the same length as valance for outside mount • NOTE: For all inside mount Roman shades, with control loop or motorization, reverse valance is included at no charge.
Fabric-only Reverse Valance		To offer visual continuity from the exterior on inside-mount, lined shades, fabric-only reverse valances are created from lining fabrics to conceal operating mechanisms from exterior view.	<ul style="list-style-type: none"> • 6"L fabric-only reverse valance with hemmed bottom • NOTE: For all inside-mount lined shades, with control loop or motorization, fabric-only reverse valance is included at no charge.
Freestanding Valance / Front or Reverse		The valance is woven separately from the shade, instead of as a continuation of the shade. A freestanding valance will often be specified to span several shades mounted side-by-side. It is also often ordered for mitered corner installations. When ordering, please state overall width and valance length.	<ul style="list-style-type: none"> • Hemmed bottom • If fabric lining is ordered, valance is not lined unless specified • Side returns the same length as valance for outside mount
